

Interstellar Taxi

Outer space java game programming in a project group

Karl Olofsson, Johan Liesén and Jimmy Stridh
Informations Engineering at Chalmers Institute of Technology

"We choose to go to the moon. We choose to go to the moon in this decade and do the other things, not because they are easy, but because they are hard, because that goal will serve to organize and measure the best of our energies and skills, because that challenge is one that we are willing to accept, one we are unwilling to postpone, and one which we intend to win, and the others, too."

-John. F. Kennedy, address at Rice University on the Space Effort of the United States of America, the beginning of a new era of space travel, September 12, 1962
